Subject: HPIC Information

Hi Ben,

I need a couple of things from you if possible. Eric contacted me about getting the designated ERT sources for the HPIC and determining what went wrong last week at CRU with the HPIC readings. Before I get the sources, I just need a couple of information about the HPICs. Could you get the following information for me:

1. Could you take a picture of the Cs-137 source used for the HPIC?
2. Could you take a picture or scan a picture of ERT's functional test sheet for HPIC unit# 174 and 172? I'll need both sides of the sheet.
3. Could you ask Lionel what readings he was getting at CRU for Cs-137 check source at the background location? Did it change from day to day? If so, what were the Cs-137 readings for each day at the background location?

I'm just trying to figure out what was happening with our system last week if the sources are similar in activity.

Thanks a bunch,

Lyndsey Nguyen
